

NATIONAL STUDENT LEADERSHIP CONFERENCE

June 29, 2025

To: Directors of Admission

Re: Jihyo Park

Dear Director of Admissions:

It is with great pleasure that I write this letter of acknowledgement for Jihyo Park as part of the college admissions process. In the summer of 2025, Jihyo attended the National Student Leadership Conference (NSLC) at University of California - UCLA. The NSLC is an extraordinary leadership program for outstanding high school students. Student scholars are selected to participate from across the United States and from more than 70 different countries based upon academic excellence, extracurricular involvement and demonstrated leadership ability.

Jihyo attended the NSLC on Film Production & Screenwriting. During this 9-day leadership development program, each student experienced a broad view of the film industry that showed them all the different avenues they can pursue. With the help of their Team Advisors and Program Director, the students produced a short film in their screen writing & video production simulations. Students experienced the entire film production process during their session; from script development to editing their film using professional editing software. They also acted as a film crew to produce a 48 Second Film. These can be added to their film-reel to show their range to future admissions boards. The students attended workshops to sharpen their film production skills as it pertains to screen writing, cinematography, and editing. The students met with celebrated professionals across the industry including writers, directors, set decorators, and cinematographers. They also had an opportunity to visit Trailer Park Group, tour the Dolby Theater & Warner Bros. Studio, see the Academy Museum of Motion Pictures, and attend a screening at the Laemmle Theater.

It is our belief and philosophy that students become more effective leaders by developing the core values that will guide their future. Through participation in this program, students not only develop a better understanding of their leadership skills, but their ability to think on their feet, to engage in critical analysis, and to effectively communicate - skills that will serve them well on their academic journey.

Students also develop a sense of independence and responsibility. They leave with a true feeling of accomplishment and confidence in their ability to handle the challenges that lie ahead. Jihyo is an excellent student who has demonstrated maturity, dedication and an ability to work well with a diverse group of students. Jihyo Park is certainly one of our world's most promising young leaders.

For additional information please feel free to contact our office directly at 1-800-994-NSLC or write to the address set forth above.

Sincerely,

Kristina Duffy
Executive Director
