Hours: 2 hours/week, 52 weeks/year

Skills

- Adobe Premiere Pro
- Video Editing
- Camera Operation
- Live Video Production
- Livestreaming
- Video Switching
- Audio Mixing
- Broadcast Graphics
- Presentation and Subtitle Operation

- Social Media Content Production
- Troubleshooting During Live Productions
- Korean-English Interpretation
- Leadership and Team Collaboration
- Creative Problem-Solving
- Calm Under Pressure

College and Career Goals

I hope to study film, media, entertainment, or creative technologies in college and continue developing both the creative and technical sides of multimedia production. My long-term goal is to build a career in church media, where I can combine livestreaming, camera operation, audio, video switching, editing, graphics, and other forms of multimedia to create meaningful worship experiences. I am especially interested in learning how large production teams operate and how different technical departments work together.

In college, I hope to contribute to student media organizations, film productions, live broadcasts, campus events, and other creative projects. I want to continue gaining hands-on production experience while eventually taking on leadership roles where I can guide other students. In the future, I hope to lead a church multimedia department and eventually mentor and recruit interns of my own.
